

Prize for Best Student Paper Aviation, Range, and Aerospace Meteorology

The Aviation, Range, and Aerospace Meteorology (ARAM) committee of the American Meteorological Society (AMS) is proud to award a Best Student Prize at the 17th Conference on Aviation, Range, and Aerospace Meteorology held 4 – 8 January 2015 in Phoenix, Arizona. This award recognizes outstanding student contributions based on an evaluation of both the submitted written paper and corresponding oral or poster presentation.

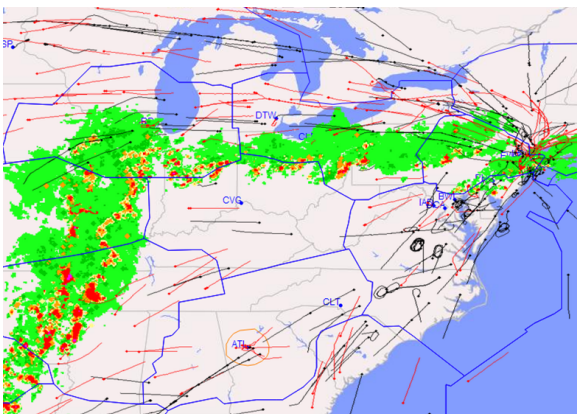

Contenders for the award will have to:

- be enrolled at a University (either at undergraduate or graduate level),
- be the lead-author and personally make the presentation of their work,
- and provide an extended abstract (short paper) before the conference.

Students who wish to be considered for this prize should indicate that when submitting their abstract. Previous winners of this prize are no longer eligible.

Note, the **1 August 2014** deadline for submission of abstracts to the Aviation, Range, and Aerospace Meteorology Conference (see AMS website for details).

For further information, please feel free to contact Matthias Steiner (email: msteiner@ucar.edu), Michael Robinson (robinson@avmet.com), or Cecilia Miner (cecilia.miner@noaa.gov).
